To The Principal

This letter is to confirm that students from FIS Institute, who are currently undertaking 'A' Levels and submit an application, with preliminary results, will receive a conditional offer into the program of their choice. This is subject to satisfying the general entry requirements to the program, such as subject pre-requisites. Students will need to provide official final results once available.

If a student is unable to obtain their final results in time to commence the semester, we do accept FIS Institute's forecast results but these need to be two points higher than that listed in our prospectus. If all entry requirements and conditions are met, we can provide an unconditional offer. Forecast results must be sent with the application and be on official FIS School letterhead from the registrar or alternate, we do not accept AS results transcript as evidence of forecast results. Students may receive an unconditional offer, for the following semester only (only an offer into 1 semester – if they wish to obtain an offer for a later semester, they then need to provide the official results).

Student must also meet the University's English language requirements prior to receiving an unconditional offer.

Please note that we are unable to issue offers in these circumstances for programs that have a quota, or have other admissions requirement. Please refer to the University's prospectus for International Students which clearly details entry requirements for all programs.

Yours sincerely,

A/Prof Simon Leuhig
Dean, International Student Admissions
Curtin International
