

The Principal
FIS Institute Pte Ltd
345 Old Nelson Road
Singapore 758692

Dear Principal,

I am pleased to confirm that Tilburg University is happy to accept suitable qualified students from FIS Institute for enrolment in the following bachelor programs at Tilburg University:

- Econometrics and Operations Research (EOR)
- Economics (ECO)
- International Business Administration (IBA)
- Global Law (GL)

Date
04 August 2014

Subject
Partnership

Telephone
+31 13 466 35 80

E-mail
o.feyli
@tilburguniversity.edu

To qualify for entry, students will normally have qualified with suitable GCE A level results. The current entry requirements can be viewed on our websites at:

- EOR: <https://www.tilburguniversity.edu/education/bachelors-programs/econometrics-and-operations-research/admission/>
- ECO: <https://www.tilburguniversity.edu/education/bachelors-programs/economics/admission/>
- IBA: <https://www.tilburguniversity.edu/education/bachelors-programs/international-business-administration/admission/>
- GL: <https://www.tilburguniversity.edu/education/bachelors-programs/globallaw/admission/>

In addition, International students from Singapore need to demonstrate evidence of English Language proficiency with a grade of C or a minimum IELTS score of 6.0 overall with all bands of 5.5 or better, or an overall internet-based TOEFL score of 80.

Tilburg University can provide a Conditional Offer of Place based on results from the FIS term examinations held in September. *The conditionally accepted applicants will still need to meet all the conditions of the schools' Admissions Committees before they can be fully admitted.*

On application, students with exceptional forecast results released in September, e.g. straight A's and a positive advice regarding the admissions interview (Global Law), may be granted a full offer in order to be eligible to enroll in August the following year. Applications with forecast results are considered on case-by-case basis. We have one annual intake, in August. We look forward to future cooperation with FIS Institute.

Yours sincerely,

Omia Feyli
