Li Wei
Director/Principal FIS Institute
345 Old Nelson Road
Singapore

Dear Madam Li

Re: A Level Qualification

In addition to the New Zealand National Certificate of Educational Achievement, the University of Auckland is pleased to accept students with A Levels into our undergraduate degree programmes.

The University of Auckland publishes in advance indicative scores and additional requirements for most programmes of study. All international students reaching the required standard may be issued a place in the relevant bachelor's programme. The University does accept forecast results and an offer may be made to students from Singapore that can provide a forecast of their A Level results that is 20% higher than the actual required, and they have applied for either the BSc, BE(Hons), BCom or BA.

We look forward to receiving applications from suitable candidates from FIS Institution.

Kind regards,

David Baker
Director
International Office
The University of Auckland
