**RE: Admissions agreement between the University of Essex and FIS Institute, Singapore**

The University of Essex is pleased to confirm that it will consider on a case-by-case basis applications from students who have successfully completed GCE A Levels at FIS Institute, Singapore. All students will need to apply via the University and Colleges Admission service at [www.ucas.ac.uk](http://www.ucas.ac.uk)

FIS students who submit an application using preliminary results, will normally receive a conditional offer of admission, where they meet all the pre-requisite requirements of the degree to which they are applying, and where their preliminary results indicate they will achieve the final A level grades required for this course. Students must provide official final results once these are available in order to confirm their place at the University.

Our standard English language entry requirements will also apply. These include The University of Essex will accept IELTS, TOEFL and PTE tests as well as GCSE grade C or above. Please note that, for some courses, specific marks in particular subjects at high school level are required for entry.

This does not constitute a formal guarantee of admission, but the University will consider each and every application is receives on the basis described. We look forward to working with FIS and to receiving applications from FIS students.

Yours sincerely,

Dan Entwistle  
Associate Director, International Office
