Endorsement: FIS Institute, Singapore

Dear Mr Lim,

Warm greetings from the University of Groningen.

Having taken note of the endorsement of the Embassy of the Kingdom of the Netherlands in Singapore, and its recommendation of FIS for partnerships with Dutch institutes of higher education, we welcome applications from qualified students from FIS Institute, Singapore, and thank you for your interest in the University of Groningen as a potential destination for your alumni.

The University of Groningen, as one of few continental European universities to do so, offers numerous English-taught undergraduate programs. Students of well over 100 nationalities chose Groningen as their place of academic study, and Asian students figure substantially among them. China and Indonesia are the main countries of origin of our Asian students, and we would greatly welcome enrolment from Singapore.

Relative to our status as a Top-100 university in the major academic rankings (ARWU 82; THL 98; QS 90; NTU 92), we believe, furthermore, that we offer tuition fee levels at fair and affordable levels for overseas entrants.

The landing page for our English-taught bachelor's program is:

<http://www.rug.nl/bachelors/in-english>

The services of GROW Office, the University of Groningen's exclusive Representative Office for Indonesia, Singapore, and Brunei, are offered free of charge to any of your students who require support and assistance in applying for admission to the University of Groningen.
