Mr. David Mok, Director
Furen International School

July 25, 2017

Dear Mr. Mok,

The University of Minnesota would consider FIS students based on their school results and internal grades. We will send admission offers and letters to your students while they are still completing their final year courses and exams, and these offers will be provisional, pending the final results of their GCEs. Once the student receives his or her final A level transcripts, we would need to receive the results so that we may confirm the student's performance and his or her place in University of Minnesota.

Students need to complete an application for admission and submit the required materials which can be found at:

http://admissions.tc.umn.edu/admissioninfo/intl_apply.html

I hope that this helps clarify our process. Our applications for admissions should be available later this summer and we look forward to receiving applications from Furen International School!

Sincerely,

Jenny Mealey
Associate Director of International Admissions
Office of Admissions
