The Principal  
Furen International School  
345 Old Nelson Road  
Singapore 758692

Dear Principal of FIS,

I am pleased to confirm that Boston University is happy to consider applicants from qualified students from Furen International School for admission into undergraduate programs at Boston University.

To be eligible for admission consideration, students will need to meet the requirements of applying as outlined on our website here: <http://www.bu.edu/admissions/apply/international/>.

Please note that we will also require a school administrator or counsellor to submit the applicant's O level results, as well as any marks earned for their A1 year (or AS Level), as well as GCE A level internal marks, at the time of application.

In keeping with our practices of application review, we will accept FIS graduation examinations held in August for student admission consideration, with the understanding that in order to matriculate fully into Boston University, the student will need to provide their final, official Singapore GCE A Level results by August 15<sup>th</sup> if applying for September admission in the same year.

We look forward to working with Furen International School, and hosting your students on Boston University's campus.

Sincerely,

A handwritten signature in cursive script, appearing to read "Anne Corriveau".
