Principal

WELCOME TO FIS

Making the decision to pursue your studies at FIS is one of the wisest choices you make in your life.

Modern and safe, Singapore is a country full of opportunities; it provides you the chance to write your life story the way you want. With the provision of high-quality education, strong financial know-how and medical care, Singapore has both the environment and opportunities to pursue one's dreams.

FIS stands out among the private schools in Singapore for our academic rigour and student management services, we will carefully guide each and everyone of you in finding your goals and teach you to be relentless in striving to achieve them as you embark on a new chapter of your story. We will tutor you on the importance of gratitude and the importance of giving back to the society as you learn the joy of creating a positive impact on the lives of those around you.

Be prepared to learn with passion and “Rise Above The Ordinary” as you soar onwards, writing a truly memorable life story that is sure to inspire others for generations to come!

THE FIS STORY

FIS aims to be Asia's most influential preparatory education institution where our graduates will secure admissions to world-renowned universities through our rigorous education system.

The Advanced Level programme was introduced in 2007 and a good numbers of our pioneer A-Level graduates were able to gain admissions to the National University of Singapore (NUS). By 2014, our best students were able to gain acceptance into Oxford and Cambridge.

Our strong focus on student academic success is also complemented with instilling social responsibilities in our youth and the constant reflection on the consequences of one's acts on others and on the environment. A good example is in 2019, students in our Boys' Brigade uniformed organization led the Cambodia Youth Voluntary Project where they taught primary school students English, repainted parts of the Chambokhae Primary School and raised funds for new windows for Hope International School in Siam Reap.

Through a focus on academic excellence, strict academic management, our students are able to secure admissions to world-renowned universities. The School focuses on a 3-year High School Diploma and a 1-year Foundation Studies programme for pre-high school students. We have never rested on our laurels and have evolved innovatively over the last twenty years. In 2021, we incorporated the content-based learning and student profile-building programmes as part of the FIS Journey. The purpose is to empower, inspire and encourage students as they journey through a rigorous and systematic process of preparing for tertiary education.

At FIS, "To Rise above the Ordinary" is not just a motto but our *raison d'être*.

WHY CHOOSE FIS?

We aim to stand out by delivering quality education services by adopting the best industry practices and hiring well-qualified teachers to conduct courses for our students.

Dedicated educators

At FIS, all our teachers are graduates of the National University of Singapore (NUS), Nanyang Technological University (NTU) and overseas renowned universities. Our young, enthusiastic and dedicated teachers use a carefully structured curriculum to engage and stimulate students to explore and think creatively and fuel their motivation to learn.

Small class size

Small class sizes lead to more individual and smaller group interaction with the teachers who can tailor their delivery according to each student's needs. As a result, their learning experience is enhanced, leading to optimum learning outcomes.

University Guidance

We help students to shortlist the best universities which would meet their expectations and needs for a tertiary education through individual counselling and guidance activities and assist them in the application process.

Student counselling

Our students' wellbeing is our utmost priority. Counsellors are on hand to ensure students get the professional help they need.

Regular communication with parents

Each student is assigned with a Mentor who is in constant contact with the student and his/her parents throughout their FIS journey.

CBD located campus

Our boutique campus is located in the heart of CBD, in the Orchard district, just a 5-minute walk from the Orchard MRT Station, and multiple bus services plying through this part of the city.

Student accommodations (run by UEG)

Our students are housed in Dalvey Residences and Jervois Residences where close supervision, care and guidance are provided to our students so that they can focus on their studies and fully benefit from the experience of living and studying in Singapore.

IN 2021, MORE THAN 80% OF FIS GRADUATES WERE ACCEPTED BY QS TOP 50 UNIVERSITIES AROUND THE WORLD

FIS has a proud history of producing academically excellent students who have gone on to further their studies at OS Top 20 Universities.

On the right are a group of selected students among many who have gained admissions into Cambridge University, Oxford University, University College London (UCL), National University of Singapore, Nanyang Technological University, Imperial College London and University of Edinburgh.

University of Cambridge
(2023 QS World Ranking #2)

University of Oxford
(2023 QS World Ranking #4)

Imperial College London
(2023 QS World Ranking #6)

National University of Singapore
(2023 QS World Ranking #11)

FIS HIGH SCHOOL DIPLOMA (HSD)

The Cambridge International and Singapore-Cambridge curriculum set a global standard for education and are recognised by universities and employers worldwide. Students develop an informed curiosity and a lasting passion for learning and also gain the essential skills they need for success at university and in their future careers.

FIS is one of the first few CPE-registered Private Education Institute in Singapore to offer a 3-year High School Diploma programme. The FIS High School Diploma was developed to provide students a rigorous education based on the highly challenging, inspiring and flexible Cambridge International A-Level curriculum or Singapore General Certificate of Education (O-Level and A-Level) curriculum.

The content-based learning programme is complemented with teacher-student mentorship and compulsory overseas projects. This equips students with the confidence, leadership and life skills to excel in the future.

The FIS High School Diploma engages students through lectures, tutorials, discussions and laboratory sessions and incorporates many experiential learning opportunities. Lectures and tutorials will be conducted in English Language and other languages may be used during individual coaching to enhance student's understanding.

Each student is offered English Language as compulsory subject and Mathematics, Physics and Chemistry as core subjects. Electives may be taken up based on interest or if the student would like to challenge themselves academically.

Upon completion, students are expected to be equipped with the knowledge and skills to sit for the Cambridge International A-Level, IGCSE, Singapore GCE A-Level or O-Level.

FIS HIGH SCHOOL DIPLOMA PROGRAMME STRUCTURE

*FPS Insurance Protection Fee rate and GST rate will be adjusted to the prevailing rate as announced by Singapore Government. Above table shows the school fee for course intakes in 2023.

FOUNDATION STUDIES FOR HIGH SCHOOL DIPLOMA (FSHSD)

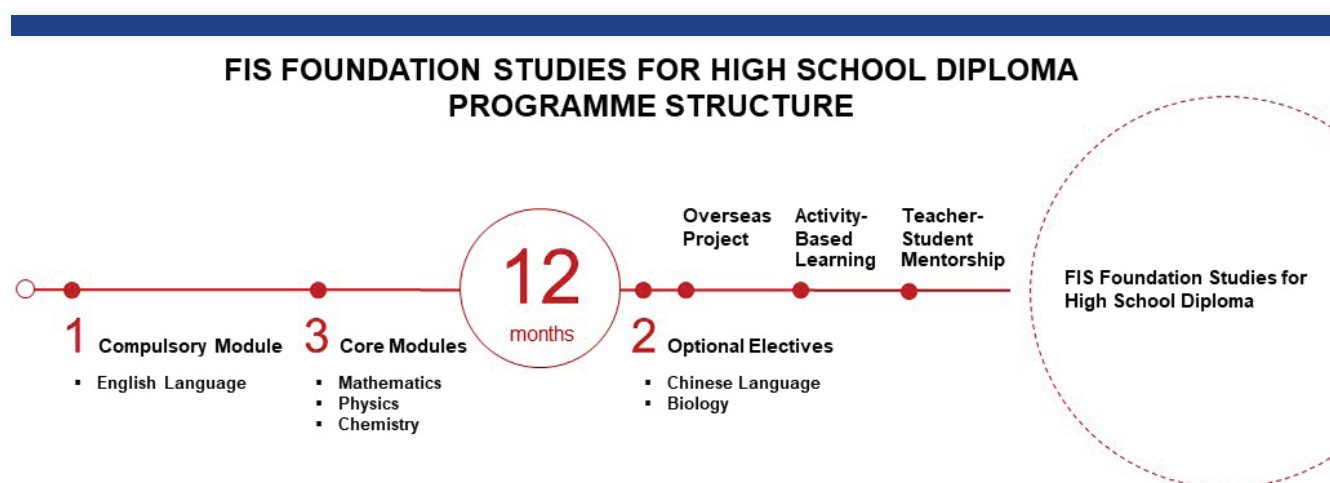

The students have the space to grow and find themselves in a unique and welcoming environment guided by teachers who particularly enjoy working with this dynamic age group.

Being able to think critically, problem solve and innovate are cornerstones of the modern job market. The activity-based learning approach adopted in the Foundation Studies encourages students to explore, experiment and to learn independently through problem-solving and independent investigation.

The small group of students would be met at the start of the school day by their Student Mentor. This develops a sense of community among the classmates and allows close mentoring and monitoring of the student by a dedicated teacher of FIS.

Students are engaged through lectures, tutorials, discussions, fun hands-on activities and laboratory sessions. Lectures and tutorials will be conducted in English Language and other languages may be used during individual coaching if necessary.

We offer English Language as compulsory subject and 3 core subjects, namely Mathematics, Physics and Chemistry. The compulsory and core subjects offered build up the basic knowledge and skills of the students. This 12-month foundation programme provides a specific curriculum based on the Cambridge Lower Secondary Programme and International General Certificate of Secondary Education to prepare students for the High School Diploma - Grade 10 course.

ENTRY REQUIREMENTS

Min Age	Min Academic Requirements	Min Language Requirements
12 and above	Completed Secondary Two or equivalent	Obtained a pass or equivalent in an English subject at Secondary Two
