“

We enable our students to reach for the stars.

”

Mr Marcus Clayton
Principal

WELCOME TO FIS

Making the decision to pursue your studies at FIS is one of the wisest choices you make in your life.

Modern and safe, Singapore is a country full of opportunities; it provides you the chance to write your life story the way you want. With the provision of high-quality education, strong financial know-how and medical care, Singapore has both the environment and opportunities to pursue one's dreams.

FIS stands out among the private schools in Singapore for our academic rigour and student management services, we will carefully guide each and everyone of you in finding your goals and teach you to be relentless in striving to achieve them as you embark on a new chapter of your story. We will tutor you on the importance of gratitude and the importance of giving back to the society as you learn the joy of creating a positive impact on the lives of those around you.

Be prepared to learn with passion and “Rise Above The Ordinary” as you soar onwards, writing a truly memorable life story that is sure to inspire others for generations to come!

THE FIS STORY

FIS aims to be Asia's most influential preparatory education institution where our graduates will secure admissions to world-renowned universities through our rigorous education system.

The Advanced Level programme was introduced in 2007 and a good number of our pioneer A-Level graduates were able to gain admission to the National University of Singapore (NUS). By 2014, our best students were able to gain acceptance into Oxford and Cambridge.

Our strong focus on student academic success is also complemented by instilling a sense of social responsibilities in our youths, and a constant reflection on the consequences of one's acts towards others and even on the environment. An example of this, is in 2019 when students in our Boys' Brigade uniformed organisation led the Cambodia Youth Voluntary Project. In this project they taught primary school students English, repainted portions of a Chambokhae Primary School and raised funds for to purchase new windows for an organisation called Hope International School, located in Siam Reap.

Through a focus on academic excellence and strict academic management, our students are able to successfully gain admission to world-renowned universities. Our School focuses on a 3-year High School Diploma and a 1-year Foundation Studies programme designed for pre-high school students. We have never rested on our laurels and have evolved innovatively over the last twenty years. In 2021, we incorporated Content-Based Learning and student profile-building programmes as part of the FIS career pathway. Our purpose is to empower, inspire and encourage students as they journey through a rigorous and systematic process of preparing for tertiary education.

At FIS, "To Rise above the Ordinary" is not just a motto, but our *raison d'être*.

WHY CHOOSE FIS?

We aim to stand-out from our peers by delivering the highest quality education services through the adoption of best industry practices, and hire passionate teachers to conduct courses for our students.

Dedicated educators

At FIS, all our teachers are graduates of the National University of Singapore (NUS), Nanyang Technological University (NTU) and other overseas renowned universities. Our young, enthusiastic and dedicated teachers use a carefully structured curriculum to engage and stimulate students to explore and think creatively and fuel their motivation to learn.

Small class size

Small class sizes lead to more individual and smaller group interaction with the teachers who can tailor their delivery according to each student's needs. As a result, their learning experience is enhanced, leading to optimum learning outcomes.

University Guidance Office

We help our students shortlist the best universities which meet their expectations and needs for their tertiary education. We achieve this through individual counselling and guidance activities and assist our students in the university application process.

Student Mentoring Office

Our students' wellbeing is our utmost priority. Mentors are on-hand to ensure students get the professional help they need. Each student is assigned a Mentor who is in constant contact with the student and his/her parents throughout their FIS journey.

Orchard Road campus

Our boutique campus is located in Singapore's famed Orchard Road district, just a 5-minute walk from the Orchard MRT Station, and multiple bus services plying through this part of the city.

Student accommodations (run by e-jia homestay)

Our students are housed in Novotel Residences, Dalvey Residences and Jervois Residences where close supervision, care and guidance are provided to our students so that they can focus on their studies and fully benefit from the experience of living and studying in Singapore.

(2024 QS World Ranking #2)

University of Oxford
(2024 QS World Ranking #3)

Imperial College London
(2024 QS World Ranking #6)

National University of Singapore
(2024 QS World Ranking #8)

FIS HIGH SCHOOL DIPLOMA (HSD)

The Cambridge International and Singapore-Cambridge curriculum sets a global standard for education and is recognised by universities and employers worldwide. Through the Cambridge pathway, students develop an informed curiosity and a lasting passion for learning. Students also gain the essential skills they need for success at university and in their future careers.

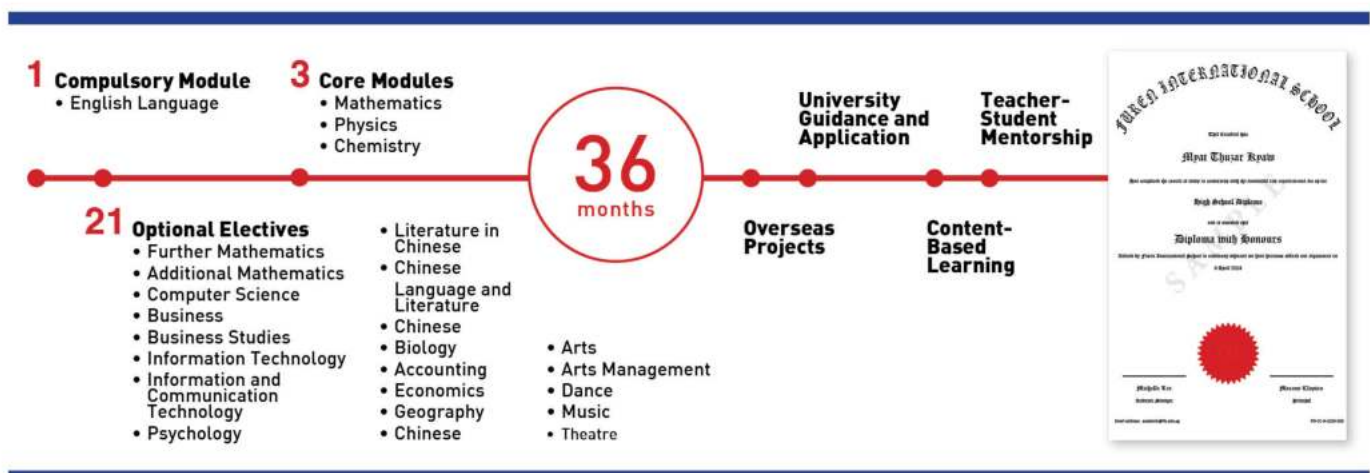

FIS is one of the first few CPE-registered Private Education Institute in Singapore to offer a 3-year High School Diploma programme. The FIS High School Diploma was developed to provide students with a rigorous education based on the challenging, inspiring and flexible Cambridge International A-Level curriculum or Singapore General Certificate of Education (O-Level and A-Level) curriculum.

Content-based learning programmes are complemented with teacher-student mentoring and optional overseas projects. This variety of experiences helps equip students with the confidence, leadership and life skills to excel in the future.

The FIS High School Diploma engages students through lectures, tutorials, discussions and laboratory sessions and incorporates many experiential learning opportunities. Lectures and tutorials are conducted in the English language, whilst other languages may be used during individual coaching to enhance an individual student's understanding.

Each student is taught English as a compulsory subject as well as the core subjects of mathematics, physics and chemistry. Electives (paid separately) may be chosen based on a student's interest, or if the student would like to challenge themselves academically.

Upon course completion, students are expected to be equipped with the knowledge and skills to sit for the Cambridge International A-Level, IGCSE, Singapore GCE A-Level or O-Level.

ENTRY REQUIREMENTS

Grades	Min Age	Min Academic Requirements	Min Language Requirements
10	13	Completed Secondary Three or equivalent in the country of origin	Obtained a pass in an English subject at Singapore Secondary Three or equivalent in the country of origin
11	14	Completed Secondary Four or equivalent in the country of origin	Obtained a pass in an English subject at Singapore Secondary Four or equivalent in the country of origin
12	15	Completed Junior College One or equivalent in the country of origin	Obtained a pass in an English subject at Singapore Junior College One or equivalent in the country of origin

N.B. those sitting for GCE O and A must be 16 and 18 respectively when taking the external exam.

[^] The fee covers compulsory and core modules.

* FPS Insurance Protection Fee rate and GST rate will be adjusted to the prevailing rate as announced by Singapore Government.

FOUNDATION STUDIES FOR HIGH SCHOOL DIPLOMA (FSHSD)

FIS students have the space to grow and find themselves in a unique and welcoming environment guided by teachers who particularly enjoy working with this dynamic age group.

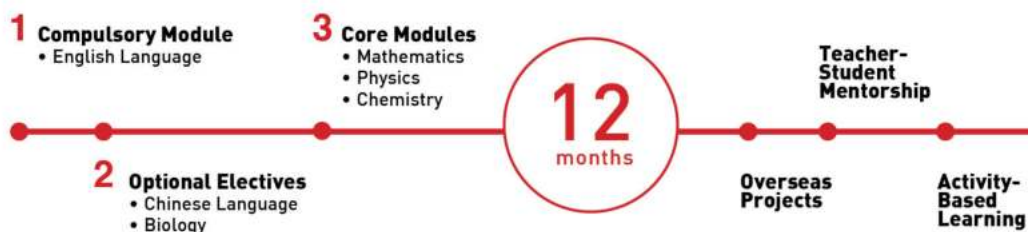

Being able to think critically, problem-solve and innovate are cornerstones of the modern job market. An activity based learning approach, adopted in FIS Foundation Studies, encourages students to explore, experiment and to learn independently through independent investigation.

The small group of students would be met at the start of the school day by their Student Mentor. This develops a sense of community among the classmates and allows close mentoring and monitoring of the student by a dedicated teacher of FIS.

Students are engaged through lectures, tutorials, discussions, fun hands-on activities and laboratory sessions. Lectures and tutorials will be conducted in the English language. Other languages may be used during individual coaching if necessary.

We offer English language as compulsory subject and 3 core subjects, namely mathematics, physics and chemistry. Compulsory and core subjects offered build-up basic knowledge and student skills.

This 12-month foundation programme provides a specific curriculum based on the Cambridge Lower Secondary Programme and International General Certificate of Secondary Education in order to prepare students for the High School Diploma, Grade 10 course.

ENTRY REQUIREMENTS

Min Age	Min Academic Requirements	Min Language Requirements
12 and above	Completed Secondary Two or equivalent in the country of origin	Obtained a pass in an English subject at Singapore Secondary Two or equivalent in the country of origin
